# BIRD & RAINGUARDS for flues 125mm to 250mm

STANDARD HEIGHT

LOW PROFILE

## THE TRADITIONAL EURO TOPGUARD for flues 125mm to 250mm

Designed to prevent birds, vermin and debris entering the flue and to help prevent rainwater ingress whilst maintaining flue efficiency. Built from fully welded mild steel, electro plated and oven cured powder coat painted or from stainless steel in natural or painted finishes. The mesh is suitable for use with gas, oil or solid fuels and is easily cleaned from below.

Complies with BS5871 Terminals up to 250mm.

Fixed with Band & Straps, Hook Bolts or Flat Top Kit (when no pot)

Standard height 200mm or Low Profile - 150mm for added rain protection.

Eurocowl recommend the stainless steel version for use over solid fuel appliances or in coastal areas or areas exposed to extreme weather.

Can also be used with the unique Euro Pot Hanger and Twinwall Adaptor.
